Juniell Justine Earl M. Coronado
Computer Scientist

★EDUCATION

COLLEGE

College Diploma, University of Southern Mindanao

I have finally finish my 4 year course in Computer Science, gaining vast knowlegde, in technologies, networking and ethical hacking.during this period i created a program regarding on networking. entitled "APPLICATION OF VALVULAR CONDUIT CONCEPT FOR NETWORK TRAFIC CONTROL". made intirely using python language inside raspbery pie 3.

SENIOR HIGHSCHOOL

Studied in San Isidro High School Balabagan Lanao Del Sur

during this time i am focus on building my knowlegde align with the carrer i want to take on colleged level. doing IT stuff, hardware, software and also in networking setting up networking cables like the ethernet(RJ45)

have 1 achiever

graduated on 2012

HIGHSCHOOL DEGREE

Studied in San Isidro High School Balabagan Lanao Del Sur

have lots of activity involving the teamwork, socialization, self-esteem, and communication.

i got 1 achiever on first year.

graduated on 2016

ELEMENTARY DEGREE

Studied in Upper Itil Balabagan Lanao Del Sur

during this time i am focus on goals and establishing good relationship to those who are around me.

have achieved 4 honor. on grade 1, grade 2, grade 3, and grade 5.

graduated on 2012

💼EXPERIENCE

INTERNSHIP, ICTO University of Southern Mindanao

Duration: 2021 − 2022 2 nd Semester As a computer science student, one must take an internship to advance in to the curriculum. During the internship I was handling an amount of student's data. And transferring it to the web, we are using Abp.io, Django, and sql. And also learn how to mingle and interact to real life work of IT Professionals and its environments

HIGHSCHOOL OGT, San Isidro High School

When i am in highschool my teacher ask us to do a ogt so she devide us and asign to different places according to our course. so i am assign to the municipal hall, in the mayors office and there there is much work happen typing and editing forms for applications in business permit. and etc.
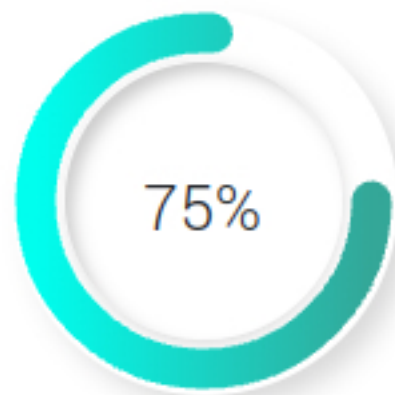

MAKING MODULES

during this covid-19 outbreak students are not permited to go to school instead they are given modules. doing it makes my fingers ache because of typing lots of pages. managing the computer and the printer is easy but there is always an error like the printer eating many paper at a time and ink bulged in the paper.
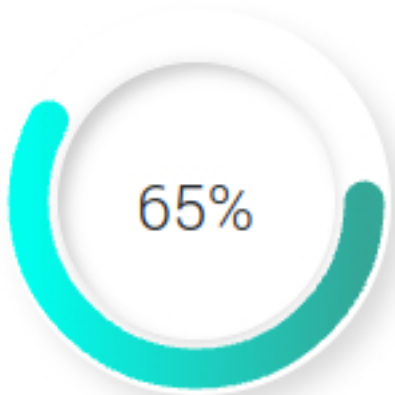

OTHER SERVICES

people ask me to help them in their laptop and pc like installations, fixing their software due to errors. i am a videographer and photographer to so im always ask to video them for thier projects using only a phone and edith it with photoshop and davince video editor. and also i spends most of my time doing freelancing, and studying.
